

KENRAY PREMIUM™

Our Premium spec forming sets are specialist formers for Quad Seal, Doy and difficult bag configurations.

- › All types of quad seal available for any make or model
- › Perfect seals achieved on each corner
- › Pathways for goglio valves, labels and zipper application
- › Bespoke alterations from standard design
- › Experience in complex bag types
- › Specialised film types such as metalised or laminate
- › High performance forming sets capable of maximising output

KENRAY's Premium spec range is exceptionally designed to enable us to produce perfect pillow packs and quantum seal bags.

Accuracy and Reliability for over 30 years.

Kenray's Premium spec forming set range is designed to help our clients produce premium pack configurations with ease.

With years of experience in forming set design and manufacture, our packaging solution engineers are aware of the difficulty in producing this product range. As a result, we take great care in developing specialist packaging solutions that help to maximise clients' packaging production.

The diversity of the Premium spec range means it can be adapted and modified to suit a variety of applications such as frozen, snacks, vegetables and pet food. They can be modified to include an extended in-feed chute to suit the packaging requirement of the customers' particular product. This variation could also increase bag speed by up to 40%.

Coating Solutions from KENRAY

All Kenray formers come with the ability to choose the relevant coating, which is right for your product. The right coating can help reduce film drag and enables an easier product flow and can even help dampen the noise on the lines. For more information visit our coatings page or talk to one of our engineers.

Total forming solutions

- > Forming sets
- > Former repairs
- > Cutting knives
- > Sealing jaws
- > Draw-down belts
- > Former accessories

The world's biggest brands and OEMs choose **KENRAY** formers for better performance and profit.

Shouldn't you?

KENRAY are recognised as the global authority on the development and manufacture of formers and solutions for the packaging industry.

Our key area of expertise is the innovative design in forming sets for vertical form fill and seal packaging machines. Renowned for value added service, consistency of design, extensive testing procedures and accuracy in manufacturing: KENRAY are the partners of choice for companies around the world within the food and pharmaceutical packaging sector.

Our forward-thinking engineering ensures inter-changeability and repeatability. It is this precision that continues to endorse KENRAY's position as the Global Leader in this market today.
